Bring Back The Green
Active Ingredient: Calcium Sulfate
DIRECTIONS FOR USE

Preventative Application:

1. Apply Bring Back The Green to the spot immediately after the pet urinates. If your pet continues to urinate in the same spot, re-apply Bring Back The Green once every two to three weeks.
2. Water the damaged area.
3. Enjoy Your Lawn

Damaged Area Recovery Application:

1. Apply approximately one cup of Bring Back The Green per square foot of affected area.
2. Water the damaged area.
3. Enjoy Your Lawn

New Grass Application:

1. Rake out dead patches of grass.
2. Loosen soil.
3. Seed with new grass seed and cover the area lightly with topsoil.
4. Sprinkle Bring Back The Green over the area (two cups per foot).
5. Keep area damp until new grass emerges.
6. Enjoy your new lawn.
